Merit Flexible Mini Grind-O-Flex Flap Wheels

The Flexible Option for Offhand Polishing and Finishing

Merit flexible mini Grind-O-Flex flap wheels are engineered for light-duty applications where additional flexibility and conformability are required. These aluminum oxide wheels feature special compliant construction to produce smooth, even finishes on parts with complex geometries.

1-1/2" and smaller diameter wheels are constructed with flexible J-weight cotton flaps; 2" and larger wheels are made of flexible X-weight cotton flaps.

The First Choice When Maximum Conformability is Required

Tip

Use Merit High Performance mini flap wheels for aggressive applications where durability and maximum material removal is required.

Merit Super Finish mini flap wheels are softer acting and provide additional flexibility while maintaining long life.

Merit Flexible mini flap wheels are for applications where maximum flexibility and conformability are critical.
